

Virkon® Aquatic

Virkon® Aquatic - Directions for General Use

A 1% Virkon® Aquatic solution is recommended for cleaning and disinfection of surfaces associated with aquaculture including: Tanks, vehicles, boats, nets, boots, waders, dive suits, & other equipment.

Mix the Virkon® Aquatic powder with clean water according to the dilution instructions in the following table.

For heavily soiled surfaces, it is recommended to clean with an appropriate detergent prior to disinfection.

Dilution Instructions

Final Disinfectant Solution Required	% Dilution Required		
	0.5% (1:200)	1.0% (1:100)	2.0% (1:50)
Quantity of Virkon® Aquatic Required			
1 Quart	0.15 ounces*	0.3 ounces	0.7 ounces
1 Gallon	0.65 ounces*	1.3 ounces*	2.7 ounces
10 Gallons	6.7 ounces*	13.4 ounces	26.7 ounces
50 Gallons	33.4 ounces*	66.8 ounces	133.5 ounces

1. Do not apply Virkon® Aquatic powder directly on surfaces you are trying to disinfect, always mix with water first.
2. Always make your solution in a clean container of known volume.
3. Measure the correct amount of Virkon® Aquatic powder using the measuring scoop provided.
 - * The scoop holds approximately 1.3 ounces of Virkon® Aquatic powder, which when added to 1 gallon of water will make a 1.0% disinfectant solution.
4. Stir the mixture to dissolve the Virkon® Aquatic powder.
5. Apply the solution to the surface(s) to be disinfected, wait for the recommended contact time, and follow up with a clean water rinse.
 - One gallon of solution is sufficient to disinfect approximately 135 sq. ft.
6. Virkon® Aquatic solutions are stable for up to 7 days. Test strips are available to determine the mixed solution's strength.

Virkon® Aquatic is US EPA (Reg. No. 71654-6) and Health Canada (DIN # 02276356) approved and is available in 10 lb. (4.53 kg) plastic tubs in the US and in 22 lb. (10 kg) plastic tubs in Canada
